Anjali Mishra

Data Analyst | Power BI Developer | Business Intelligence & Marketing Analytics

Pune, India (Open to Relocate) | +91-8175833038 | mishraanjali.official@gmail.com

Portfolio: mishra-anjali-22.github.io | linkedin.com/in/anjali-mishra-44820b1a8 | github.com/Mishra-Anjali-22

PROFESSIONAL SUMMARY

Data Analyst with **4+ years of experience** building interactive **Power BI** and **Tableau** dashboards for clients and C-suite stakeholders. Strong in **DAX, Power Query, data modelling (star schema)** and **SQL**, with working knowledge of Python and Looker Studio. Background in **marketing & campaign analytics** and market intelligence across 10+ concurrent client projects, from requirements gathering to automated reporting and executive read-outs. Seeking a Power BI / BI Analyst role.

TECHNICAL SKILLS

BI & Visualisation: Power BI (DAX, Power Query, Data Modelling, Star Schema, KPI Dashboards), Tableau, Looker Studio, Excel (Pivot Tables, XLOOKUP, Power Query, VBA)

SQL & Data: SQL / MySQL (Joins, CTEs, Window Functions, Views, Subqueries, Query Optimisation), ETL Pipelines, Data Cleaning & Validation, Reporting Automation

Analytics & Python: Python (Pandas, NumPy, Scikit-learn, Matplotlib), Campaign Analysis, Segmentation & Cohort Analysis, A/B Testing, Forecasting, R, SAS

Tools & Business: Google BigQuery, Git / GitHub, JIRA, Agile / Scrum, Requirements Gathering, Stakeholder Management, Data Storytelling, Executive Presentations

PROFESSIONAL EXPERIENCE

Knowledge Sourcing Intelligence | Pune, India — Apr 2023 – Present

Data Analyst – Market Research & Business Intelligence

- Design, build and maintain **Power BI and Tableau dashboards tracking 15+ KPIs** (revenue trends, engagement rates, market performance) across **10+ concurrent client projects**, enabling self-service analytics for cross-functional teams.
- Gather client reporting requirements and turn findings into executive dashboards and **C-suite read-outs**.
- Automated end-to-end **ETL pipelines** for data collection, transformation and validation, **reducing manual reporting effort by ~40%** and improving data accuracy across deliverables.
- Analyse **100,000+ record datasets** using SQL, Python (Pandas) and Excel to identify market trends and consumer behaviour, contributing to a **30% improvement in client engagement metrics**.
- Developed **segmentation and cohort analysis** frameworks to measure campaign effectiveness, supporting a **20% improvement in campaign targeting accuracy**.

Datamatics Global Services – HDFC Bank Project | Mumbai, India — Feb 2022 – Aug 2022

Associate – Data Analytics

- Delivered interactive **Power BI and Tableau dashboards** for senior management, cutting recurring reporting cycles **from 3 days to same-day delivery**.
- Analysed large-scale banking transaction data with advanced SQL and Python, and built classification models (Logistic Regression, Random Forest) to predict customer payment behaviour, **improving prediction accuracy by 20%**.
- Ran root cause analysis on data quality issues; new validation controls **cut reporting errors by ~15%**.

Codenautics | Pune, India — Feb 2021 – Aug 2021

Data Science Intern

- Built classification and regression models in Python (Scikit-learn, Pandas); performed EDA in Matplotlib and Seaborn.

KEY PROJECTS

Kickstarter Crowdfunding Analysis | Power BI · Tableau · Excel · SQL — View project

- Analysed **300K+ crowdfunding projects (2009–2019)** using a **star-schema data model**; delivered the same dashboard in Power BI, Tableau and Excel.
- Identified success drivers: **38% overall success rate**, projects with goals **under $10K succeed ~46%** of the time, and success peaks for October and Monday/Tuesday launches.

Bank Loan Analytics | Power BI · MySQL — View project

- Analysed **538,000+ loan records** via a SQL join view and a multi-page Power BI report: yearly loan growth, grade-wise balances, verified vs non-verified repayment, state trends.

Sales Insights Dashboard | Power BI · DAX — View project

- Built an executive sales dashboard over **50,000+ sales records** showing revenue and quantity by market, top 5 customers and products, and revenue trend with date slicers.

Superstore Sales Dashboard | Tableau — View project

- Parameter-driven Tableau report switching views between Sales, Profit and Orders, with profit-margin and return-rate KPIs, a state map, Top-5 ranking and drill-down filter actions.

EDUCATION & CERTIFICATIONS

Master of Computer Applications (MCA) | Banaras Hindu University, Varanasi | CGPA 8.20 / 10 — 2019 – 2022

Bachelor of Computer Applications (BCA) | BIT Mesra, Ranchi | CGPA 8.28 / 10 — 2016 – 2019

Certifications: Google Data Analytics Professional Certificate (Coursera) · Data Analyst Certification (ExcelR) · Data Science for Engineers (NPTEL) · HackerRank SQL 5 Star Gold Badge
